DR. J. T. JOHNSON Guarantees to correct every case that he undertakes. If your eyes are giving annoyance consult him at once.

## DRUNK AND DISORDERLY.

### A Couple of Topers Drunk Yesterday

—In the Lock-up.

Two drunks will be brought up before Mayor Taylor this afternoon to get justice. Sam Harvey, the cigar maker, got on another "tear" yesterday. Now, when Sam gets drunk there is apt to be some excitement in the locality he visits, but his drunk yesterday was of a very mild form. Sam usually gets a shot gun to the policemen but yesterday, used no firearms, although he was very stubborn.

He was using language in South Greensboro that he didn't learn at Sunday School and when Officer Jeffries offered to take him home, Sam began backing, unaware of the fact that he was backing toward the lock-up, to which place Mr. Jeffries finally took him.

Officers Jordan and Whittington looked up a very drunk and disorderly soldier last night and he will stand by Sam at the bar of justice this afternoon.

## EDWIN ROSTELL.

### The Ambitious Young Find Inspiration, The Sages Comfort.

It is no wonder that the ambitious young find inspiration and the sages find the comfort and the solace of corroboration in the study of Hamlet. Public interest needs only the stimulation for desire of more intimate acquaintance with profound minds to push aside the barriers which grandiloquent forms of expression, and the subtleties of philosophical distinction present to the casual observer to make appreciation of Shakespeare, and in fact any other form of grand and noble art. To such as hold these views the conscientious, intelligent and painstaking effort of such a gifted actor as Edwin Rostell, who will appear in the play of Hamlet, Mar. 20-21, is a hearty endorsement. He has a love and fondness for his calling, which, taken in connection with his abilities best augurs for his success. Physically he is of the right proportion, his voice is flexible, pure and of volume. He elucidates each line perfectly. In repose his face is interesting and when aroused it becomes grandly interpretative. In a word Rostell is impelled by an artistic force wholly uncommon. He is separated from the Hamlets of the past and the isolated ones of the day that there can be but one niche for him in the Shakespearean temple, and that not far from the place of honor.

Summer Homes' Folder, 1899. Mr. W. A. Turk, general passenger agent of the Southern railway, is collecting information for Summer Homes' Folder for the ensuing summer, giving the names of proprietors, postoffice addresses, at or near what station, conveyance used, number of guests, terms per day, week and month. This information will be printed in an attractive form and a large edition published and distributed by the various agents of this immense system throughout all sections of the country. Persons contemplating taking boarders for the ensuing summer are requested to apply to the nearest railroad agent for blank to be filled out giving the above information, and forward at once to W. A. Turk, general passenger agent, Washington, D. C., so that it may reach him not later than April 1st.

## Postoffices Consolidated.

An order consolidating the Winston and Salem postoffices has been issued by the Department at Washington, to take effect July 1st. The new office will be known as Winston-Salem. Col. P. H. Lybrook, the present postmaster at Winston, will have charge of the new office which will be the only first class post office in the state. A postal station will be established in Salem with W. P. Crosby, the present postmaster, as superintendent. It is understood that Col. Lybrook's salary will be increased to \$3,500 and that of Mr. Crosby's reduced from \$2,000 to \$1,200.

## Woodley-Cook Nuptials.

## \$50.00 Reward.

## Work of a Tornado.

By Wire to THE TELEGRAM. Birmingham, Ala., March 15—A tornado near here today caused much damage to property and it is feared there has been loss of life. The wires are in bad shape as a result of the storm and details are difficult to obtain. The tornado wrecked a dozen or more dwellings and three churches and unroofed several factories in Avondale and Woodlawn, suburbs of Birmingham.

## Tobacco From Chatham.

Five wagon loads of tobacco from Chatham county came to town yesterday afternoon, some of them going to the Banner and others to the Farmers' warehouses. They were in all the rain yesterday, though the wagons were well covered and the tobacco was kept dry. The men report the roads in miserable condition. They were well pleased with the Greensboro market, the only dissatisfaction being difficulty almost impassable roads they have to travel.

HOW IS YOUR ARM?

Appropriate Poetry By a Wake Forest School Girl.

In this day when vaccination is general throughout North Carolina the following lines by a Wake Forest school girl scribbled off a few days ago, and quoted by Dr. Taylor in a letter to the Biblical Recorder, appropriate:

You may talk about evils—mad dogs and taxation  
Mud roads, sour bread, and poor legislation,  
Crying babies, spring poets and co-education;  
But of all woes known since the dawn of creation  
And utterly without amelioration,  
The worst is the fearful thing called vaccination.

Lost Her Way.

An exceptionally bright and attractive deaf and dumb girl of perhaps fifteen years, enroute to her home in Durham from Morganton, got off number 36 here yesterday and was escorted to the reception room by the porter, who told "Peggy" the well known colored matron to put her on the Winston train. Peggy obeyed orders and the girl was sent to Winston. Captain Staggs, of the Winston train, discovered the mistake, of course, and the girl returned here last night, leaving for Durham on the 11:45 train. She has been in school at Morganton and was forced to discontinue her studies on account of her eyes. The porter's mistake caused her much inconvenience and several hours delay.

WEDNESDAY, MARCH 15, 1899.

It is gratifying to note the friendly and complimentary tone of the northern press to General Joe Wheeler as contrasted with the caustic criticism which is freely bestowed on General Anti-tropical Shafter and Photographer's Friend Miles.

A contemporary in enlightening its readers as to Queen Victoria's surname, says:

"The Queen's legal name, were she by some mysterious process to become a simple commoner, would be 'Mrs. Wotton,' by virtue of her marriage with Prince Albert Ooburg-tohooa-Sax-cmf-shrshrh."

Some people were not aware that Her Majesty had any other name than simple 'Queen Victoria' and a large per cent. of readers will, even now, fail to understand where the name 'Mrs. Wotton' comes from unless, as we may be allowed to suppose, it is because of the tears shed by the queen herself over trying to find out the name of the man she married.

Our esteemed contemporary, the Newbern Journal, is after Prof. W. F. Massey with a sharp stick for publishing in the Bulletin of the Agricultural Experiment Station that Newbern depends on Chicago for its beef supply. The Journal tells the professor that there is not now and has not been for a year or more, a pound of Chicago beef on the Newbern market and calls on him to correct the statement. The Journal further informs the well-informed professor that Craven county cows make the sweetest beef of such fine quality that no outside beef can compete with it. Prof. Massey should have learned before now that it is unsafe, if not really dangerous, to say "beef" to anybody just now, especially to a man who is eating the genuine, uncanned and home-grown article.

We have received a copy of "The Lives of Distinguished North Carolinians" and after a hasty perusal we feel prepared to endorse the following, from the North Carolina Journal of Education: "The Lives of Distinguished North Carolinians is now being delivered to subscribers; and it is a very handsome volume. The printers and binders have done their work well. No more valuable book has ever been published in North Carolina. From the tersely written introduction to the last chapter, containing D. H. Hill's address on 'The Old South,' the book is full of interest for every student of history. It is in no sense a school book, but is a book for the general reader. The teacher of the history of North Carolina or of the United States will find in this book much valuable assistance."

That Americans and American enterprises are "in it" to some little extent with the "old country" is shown by the fact that the Baldwin Locomotive Works in Philadelphia are now building thirty fast locomotives for the Midland Railway, of England and that the same company has just received an order for fast locomotives from France. This is a compliment to the capacity and workmanship of the American builders, though some English papers claim the machines built in this country are inferior to the English make. We take it, however, that railroad people, who are having the work done, have thoroughly investigated the various points of excellence and are satisfied they are getting the worth of their money. We have yet to hear of an English machine making the rate of speed that was recently attained in the fast mail contest between Chicago and Omaha by American built engines.

In a free fight among members of the twenty-fourth colored infantry, at Cheyenne, Wyo., Corporal Greelmore was fatally stabbed.

## MEXICO'S SIGN LANGUAGE.

Seatures With a Meaning Understood by Every Tribe.

Mexico is a land of many tongues, but above the Indian dialects and Spanish there is one universal language—the language of signs. It is the most expressive of all—the Mexican eye and hand are eloquent members. It is capable of infinite variation. Its shadings and suggestions are beyond all translation. But there are certain gestures which have a fixed meaning, a significance well understood by every nation and every tribe from Guatemala to Texas.

A general upward movement of the body, shoulders shrugged, eyebrows raised, lips pouted and palms outspread, varies in meaning from "I don't know and I don't care" to a most respectful, "Really, sir, I do not understand you."

The index finger moved rapidly from right to left generally before the face means "No more" or simply "No." To move the right hand palm outward from the body toward another person means "Just wait; I'll be even with you yet."

The index finger on the temple moved with a boring twist means "He's drunk."

The right hand held to the lips, three fingers doubled, thumb and little finger erect, varies from "He drinks" to "Have one with me."

To move the open hand over the cheek in imitation of a razor has reference to the idiom "playing the barber" and means "to flatter."

All four fingers and the thumb held point together and moved toward the mouth means "to eat."

The right hand held before the face, the two middle fingers moving rapidly, is a familiar salutation.—"Modern Mexico."

The Methods by Which the Woodsman Brings Them Down.

The chopper approaches the tree with a plan to bring it down. If the tree does not lean more than two feet in the case of a large tree or more than four in the case of a small one, he considers that he can fell it in any direction he may desire. He then views the ground and selects the most promising "lay out," and the undercut is made exactly facing it. The "undercut" usually extends about one-third through, and then the tree is sawed in from the back to meet it.

When the two cuts are within six inches of meeting, the saw is removed, and the tree is wedged up until the top passes the center of gravity, when it falls by its own weight, easily breaking the strip of wood remaining.

Where the surface of the ground is such that it is necessary for the butt and the top to strike the ground simultaneously, the stump is snubbed off at the undercut, which provides a slanting surface, so that the butt has no place to rest and perforce slides to the ground.

If the tree needs to be rolled off to one side, half the undercut is slanted, and a pile of chips is placed on the flat surface of the other half. The result never fails to manifest the efficacy of this device. Again, by leaving one side of the undercut between the undercut and the saw cut thicker than the other, the tree may be drawn considerably away from its natural course.

## To Investigate Our Smallpox.

One case of discreet smallpox after being discussed and re-discussed can make a lot of excitement. The Winston board of health met yesterday afternoon to consider the question of ordering vaccination, on account of the smallpox scare in Greensboro, and decided to send a man here to investigate the exact condition of affairs in this city, and the action of the board will depend entirely on his report. Dr. C. L. Summers, of Winston, came down this morning to make the investigation and returned home at noon. After learning the condition of affairs he thinks he will not recommend order to vaccinate in Winston, as the case here is very mild and well guarded.

As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute," will "answer the purpose," or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for lung, throat or bronchial troubles, to instil vigorously on having it if "something else" is offered you. Howard Gardner.

David Evans, a professional wrestler, shot and killed Libbie White, a singer, at Nantua, B. C., and took his own life.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give me any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh Edgar, Germantown, Cal. For sale by C. E. Holton.

The Kentucky whiskey distillers are husbanding their stocks in expectation of a rise in prices, and the small concerns are being absorbed by the trust.

## Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

## Remarkable Rescue

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine would cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was.—Free trial bottles of this Great Discovery at C. E. Holton's drug store. Large bottles 50 cents and \$1.00.

Opening of the Social Season and In-  
auguration of the Magnificent

**New York & Florida Limited Service**  
JANUARY 16, 1909.

The opening of the Florida season  
will be signalized this year as usual  
by the placing in service of the "New  
York and Florida Limited" between  
New York and St. Augustine, Fla.  
This is acknowledged to be the finest  
train in the world, in its appoint-  
ment, luxury and detail of finish,  
and the first of these trains was con-  
structed by the Pullman company for  
the use of the President of the United  
States on official tours.

"The New York and Florida Limited"  
leaves New York daily except  
Sunday at 11:50 a. m., via the pen-  
sylvania Railroad, the Southern  
Railway, Florida Central & Penin-  
sular R. R. and the Florida East  
Coast Railway, and reaches St. Au-  
gustine at 2:20 p. m. the following  
day, making the run, which exceeds  
1,000 miles, in little more than twenty-  
four hours. No train has attracted so  
much attention, and its fame has  
been heralded wherever railroading is  
known. It is composed of Pullman  
compartments, each room being  
finished in different woods and sup-  
plied with private lavatory and toilet;  
Pullman drawing-room sleeping cars  
of the latest pattern and finish; a royal  
club car for the gentlemen; an obser-  
vation car with a handsome drawing  
room at its rear opening on to a wide  
platform; a library car, and dining  
car, in which the service and the out-  
side rank with the finest New York  
hotels. This "New York and Florida  
Limited" runs through solid to St.  
Augustine with the exception of one  
car which is detached at Columbia,  
S. C., and goes through to Aiken,  
which it reaches at 9:35 the next morn-  
ing after leaving New York, and Au-  
gusta at 9:50. Brunswick and Jacksonville  
Island are conveniently reached by  
this train at 12 o'clock noon through  
the perfect connections afforded at  
Everett, Ga.

There are two other fine trains be-  
tween New York and Florida via  
"The Florida Short Line," one the  
"Washington and Southern Vestibule  
Limited," leaving New York at 4:20 p. m. daily, and the "United  
States East Mail," leaving New York  
at 12:05 midnight. The former train  
carries through Pullman drawing  
room sleeping cars between New York,  
Jacksonville and Tampa, and also  
offers Pullman sleeping car service  
between New York and Augusta, Ga.,  
with connections for Aiken, Brun-  
swick and Jacksonville. The latter  
carries through drawing room sleep-  
ing cars between New York and Jack-  
sonville, connecting with parlor car  
service to points on F. C. & P. R. R.  
and F. E. C. Ry. Dining cars are  
operated on all trains of the Southern  
Ry. "The Florida Short Line" in  
connection with the Florida East  
Coast Railway to Miami offers the  
most direct, quickest and delightful  
service to Nassau, Havana and Key  
West. For full information, reser-  
vations, etc., apply to J. L. Adams, G.

**THE LINK THAT BINDS.**  
JACKSON, TENN., Nov. 28.  
I was subject to miscarriage for three years,  
and suffered constantly with backache. I wrote  
to you for advice, and after using three bottles  
of Wine of Cardui, according to your directions,  
I am strong and well, and the mother of a fine  
girl baby.  
Mrs. E. N. JOWERS.

**Wine of Cardui**  
There is no use talking—a baby in the house is the link that binds  
husband and wife together. Nothing is sadder than fruitless wedlock.  
The prattling and cooing of the little ones offset a thousand times the  
occasional worries and trials of life. When a wife is barren, there is a  
derangement somewhere in the genital organs, caused by one or more of  
those common disorders known as "female troubles." Wine of Cardui  
is the remedy. It puts the organs of generation in a strong and healthy  
condition, fitting the wife for the sacred duty of reproducing her kind.  
During the period of gestation the entire system of the expectant mother  
is built up to withstand the ordeal of labor, and when the little one  
makes its advent it is lusty and strong, well-fitted to grow to ma-  
turity in perfect health. The mother, too, passes through the  
trial with little pain and no dread. Wine of Cardui is truly a wonder-  
ful medicine for women.

Chamberlain's Cough Remedy

This remedy is intended, especially  
for coughs, colds, croup, whooping  
cough and influenza. It has become  
famous for its cures of these diseases,  
over a large part of the civilized  
world. The most flattering testimo-  
nials have been received, giving ac-  
counts of its good works; of the aggra-  
vating and persistent coughs it has  
cured; of severe colds that have yielded  
promptly to its soothing effects, and  
of the dangerous attacks of croup it  
has cured, often saving the life of the  
child. The extensive use of it for  
whooping cough has shown that it  
cures that disease of all dangerous  
consequences. Sold by C. E. Holton.

**Preventive of Smallpox.**  
Greensboro, March 14, '99.  
Editor Telegram:—The following  
recipe by Dr. Rose, of Dorking, Eng-  
land, is a preventive, and a cure for  
smallpox, if taken in its earlier stages.  
"Three ounces cream of tartar,  
forty-eight ounces of rhubarb, mix  
with one gallon of cold water." As a  
preventive drink half a pint occa-  
sionally. If failing with the disease  
drink half a pint every two or three  
hours.

We had the complaint in our family  
of nine, in England, and only three  
were affected. The prompt use of the  
remedy prevented the spread of the  
disease. Very truly,  
Citizen.

**Crippled by  
Rheumatism.**

Those who have Rheumatism find  
themselves growing steadily worse all  
the while. One reason of this is that  
the remedies prescribed by the doctors  
contain mercury and potash, which ul-  
timately intensify the disease by caus-  
ing the joints to swell and stiffen,  
producing a severe aching of the bones.  
S. S. S. has been curing Rheumatism  
for twenty years—even the worst cases  
which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad  
conductor, of Columbia, S. C., had an experi-  
ence with Rheumatism which convinced him  
that there is only one  
great relief from mus-  
cular Rheumatism, for  
two years. I could get  
no permanent relief  
from any medicine pre-  
scribed by my physician.  
I took about a dozen bot-  
tles of your S. S. S., and  
now I am as well as I  
ever was. I am sure that your medicine  
cured me, and I would  
recommend it to any one  
suffering from any blood disease.

Everybody knows that Rheumatism  
is a diseased state of the blood, and  
only blood remedy is the only proper  
treatment, but a remedy containing  
potash and mercury only aggravates  
the trouble.

**S. S. S. For the Blood**

being Purely Vegetable, goes direct to  
the very cause of the disease and a per-  
manent cure always results. It is the  
only blood remedy guaranteed to con-  
tain no potash, mercury or other dan-  
gerous minerals.

m-10a. City Clerk.

**Chamberlain's Cough Remedy**

This remedy is intended, especially  
for coughs, colds, croup, whooping  
cough and influenza. It has become  
famous for its cures of these diseases,  
over a large part of the civilized  
world. The most flattering testimo-  
nials have been received, giving ac-  
counts of its good works; of the aggra-  
vating and persistent coughs it has  
cured; of severe colds that have yielded  
promptly to its soothing effects, and  
of the dangerous attacks of croup it  
has cured, often saving the life of the  
child. The extensive use of it for  
whooping cough has shown that it  
cures that disease of all dangerous  
consequences. Sold by C. E. Holton.

**Preventive of Smallpox.**

Greensboro, March 14, '99.  
Editor Telegram:—The following  
recipe by Dr. Rose, of Dorking, Eng-  
land, is a preventive, and a cure for  
smallpox, if taken in its earlier stages.  
"Three ounces cream of tartar,  
forty-eight ounces of rhubarb, mix  
with one gallon of cold water." As a  
preventive drink half a pint occa-  
sionally. If failing with the disease  
drink half a pint every two or three  
hours.

We had the complaint in our family  
of nine, in England, and only three  
were affected. The prompt use of the  
remedy prevented the spread of the  
disease. Very truly,  
Citizen.

**We Bid for Your Business.**

In bidding for your business we do so on the merits  
of our merchandise and the seasonableness of our prices. It  
goes without saying that no other house between the Two  
Big Rivers can show you one-fourth the variety that we do  
in the various lines we carry. We aim to carry the best the  
world produces in each particular line, but we do not lose  
sight of the fact that not every man or head of a family can  
afford to buy the best. Therefore we have carefully catered  
to the wants of the masses and we can assure the patrons of  
our house that the medium and cheaper grades to be found  
there are the best obtainable elsewhere in the union for the  
price we name. Our great purchasing power, coupled with  
our commercial courage, make these things possible. While  
our stock is not entirely complete, still with our buyer in  
New York and by shipping us every day only a few days will  
elapse before we will be able to present a solid front. The  
greatness of an opportunity depends upon the use you make  
of it. Here is one thrown at you—catch it. The pitchers are

### The Best for the Last.

Ex-Judge Wm. P. Bynum Jr., of this city, than whom there is no brighter criminal lawyer in the state, made the closing argument for the prosecution, in the Breese trial at Asheville yesterday. His speech is spoken of as a terrible arraignment though void of so much vehemence. Like all of Judge Bynum's speeches was deep, clear, eloquent and strong and the last blow against the alleged bank-wrecker was a heavy one. Judge Bynum was associated in the prosecution with District Attorney Holton and his assistant Spencer Blackburn, both of whom made strong speeches, Blackburn's boiling over with vehemence.

MRS. HOUSEKEEPER:

Please permit us to ask you a very pointed question: Have you a Universal Food Chopper? By this we do not mean a meat grinder, but a Chopper, which takes the place of chopping bowl and beater. It chops meat, of course, but it does more. You can chop ham, cocoanut, or bread instead of grating it. You can—but we can't tell it all here. Our booklet gives full information free. You will have use for it every day in the year. It is very simple and very cheap. Please call and let us show it to you. Yours truly, Odell Hardware Co.
